

# The HP-10 has all the features of a desktop office machine...

Whisper-quiet thermal printer gives you a printed record of your calculations.

Prints a line of crosshatches for separating portions of your printout.

Saves battery life and paper by using only the display. Or uses only the printer. Or uses both!

Prints display entry (for putting a date on your tapes).

10 clear, sharp display digits for viewing in dim or bright light.

Paper advance moves paper without printing.

Memory lets you store a constant for recall at any time ... or acts like a "second calculator" by maintaining a separate running total.

Quick, easy percent calculations for taxes, dividends, commissions.

Computes subtotals or totals.

Add-mode automatically positions decimal points.

Familiar adding-machine keyboard has "click-action" keys for positive input, and is buffered so the calculator will "catch up" when you key in numbers very rapidly.

## and it's pocket-sized.

### THE HP-10 IS SMALL — AND SUPERB

Hewlett-Packard's exciting new HP-10 is up to 50% smaller and lighter than other hand held printing calculators—with all the features you'd expect to find in a desktop office machine. And look at the HP-10's incredible versatility:

**Perfect for managers and accountants.** Stylish yet unobtrusive in office or desk, it's there whenever you need it—with a permanent paper tape for record-keeping, estimating, or tax purposes. And it's as easy to use as an adding machine!

**Ideal for business and sales persons.** The handy HP-10 gives you instant quotations, commissions, totals—and your answers are displayed, or printed, or both. With a percent key and a constant!

**The HP-10 travels with you.** The small size and light weight of the HP-10 make it just right for pocket or briefcase. And the powerful rechargeable batteries mean you can use it anywhere—in automobile, taxi, or commuter train. The HP-10 is for people on the move!

**At the office or in the home,** everyone can use the HP-10. Expense accounts, budgets, balancing the checkbook—you get results as detailed as you want them, even out to 10 digits. Great for homework, too!

The HP-10 is another professional calculator from Hewlett-Packard, worldwide leaders in calculator technology and design. State-of-the-art electronics and integrated circuitry have reduced the standard office machine to pocket-size—and still improved it! You get an independent memory, so a constant or separate running total is available at the press of a single key, and you don't have to reenter results in long calculations. You get the "add-mode" feature, which automatically positions the decimal point for keying in dollars and cents. You get a printer that's quiet enough for meeting or boardroom. And the battery-operated HP-10 is so small—suddenly, your office is wherever you are!

(Shown actual size.)

## THE HP-10 CALCULATOR FEATURES...

### Keyboard Features:

DISPLAY  PRINT Print mode switch.

-  Paper advance.
-   $M^+$  Add to memory.
-   $M^-$  Subtract from memory.
-   $M^R$  Recall number from memory.
-   $CM$  Clear memory.
-   $CE$  Clear entry.
-   $C$  Clear all.
-   $\square$  Prefix key to select alternate function in gold above a key; also selects number of decimal digits displayed.

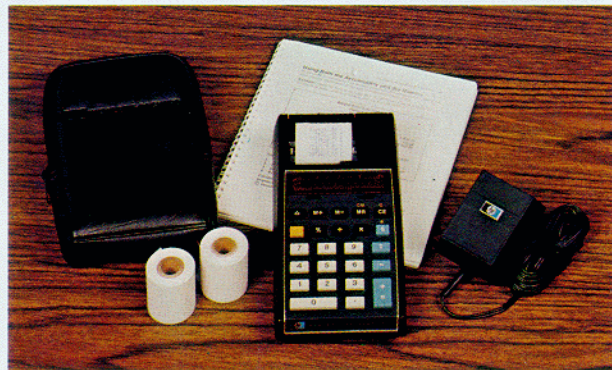

-  % Percent.
-   $\times$   $\div$  Multiplication and division.
-   $\#$  Prints entry.
-   $S$  Subtotals sums.
-   $T$  Totals sums, then clears accumulator; preceded by  $\square$ , prints a line of crosshatches.
-   $-$  Subtraction.
-   $+$  Addition, and equals key for multiplication and division.

### Physical Specifications:

- Calculator length: 16.5 cm (6.5 in.).
- Calculator width: 8.8 cm (3.45 in.).
- Calculator height: 4.0 cm (1.6 in.).
- Calculator weight, with battery pack and paper: 342 g (12.1 oz.).
- Shipping weight: 1.18 kg (2.6 lb.).
- Operating temperature range: 0° to 45° C (32° to 113° F). With paper, 5% to 95% relative humidity.
- Charging temperature range: 15° to 40° C (59° to 104° F).
- Power requirements: 115 Vac (or 230 Vac)  $\pm$  10%, 50 to 60 Hz.
- Battery: 5-volt, quick-charge nickel-cadmium battery pack.
- Battery operating time: 4 to 7 hours.
- Battery charge time: 6 to 10 hours, calculator off; 17 hours, calculator on.
- Paper roll length: 8.5 m (28 ft.).

## WITH EVERY HP-10 YOU ALSO GET...

Fast-charge battery pack installed in the calculator before shipping. • AC Adapter/Recharger that lets you operate the HP-10 while the battery pack is recharging. • Comprehensive manual (75 pages), covering calculator operations and over a dozen business applications. • Attractive soft carrying case. • Three rolls of thermal paper. (Additional paper is available in six-roll packs.)

## HEWLETT-PACKARD QUALITY

Hewlett-Packard quality is a tradition, and has been for over 35 years. And that quality is built into every HP-10 — just as it's built into each of the millions of Hewlett-Packard calculators now in use.

When you purchase a calculating instrument from Hewlett-Packard, your investment yields much more than the functions you see on the keyboard. It yields intangibles—those hard-to-measure features that show up after you've used a calculator hundreds or thousands of times. Things like Hewlett-Packard "human engineering"—smooth, effortless operation, a quiet thermal printer. Things like traditional HP quality.

## FULL ONE-YEAR WARRANTY\*

The HP-10 and its accessories are warranted against defects in materials and workmanship for one (1) year from the date of delivery. During the warranty period, Hewlett-Packard will repair or, at its option, replace at no charge, components that prove to be defective, provided the calculator or accessory is returned, shipping prepaid, to Hewlett-Packard's Customer Service Facility.

This warranty does not apply if the calculator or accessory has been damaged by accident or misuse, or as a result of service or modification by other than an authorized Hewlett-Packard Customer Service Facility. No other express warranty is given by Hewlett-Packard. HEWLETT-PACKARD SHALL NOT BE LIABLE FOR CONSEQUENTIAL DAMAGES.

\*A copy of the complete warranty is available upon request from your dealer or by mail from Hewlett-Packard.

The HP-10 is manufactured by Hewlett-Packard in Singapore. Hewlett-Packard reserves the right to make changes in materials, specifications or accessories without notice.

For additional information or the name of the dealer nearest you, call toll-free 800-648-4711. (In Nevada, call collect, 1-702-323-2704.)
