

New for the HP-41:  
Just Aim and Print!

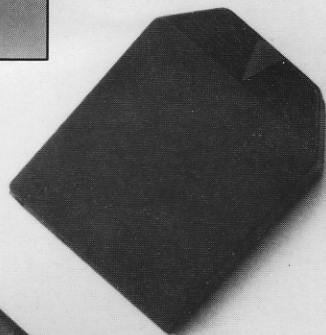

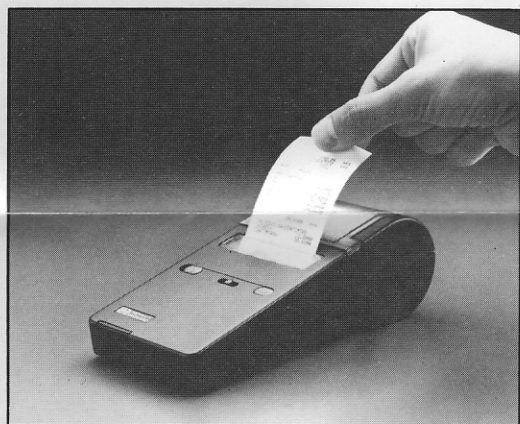

# HEWLETT-PACKARD

Your HP-41 Advanced Calculator is a powerful tool for solving problems in engineering, science and math. And now you can back that power with quick, convenient printouts – anytime, anywhere!

The HP-41 can now operate HP's revolutionary new Infrared Printer. All it takes is a small module that plugs into the calculator and you're in business. You'll love the convenience – no cables, no cords. No strings attached.

The printer works with an invisible infrared beam, so no matter where you're working – at your desk, in a crowded car, or out in the field – you'll never have to contend with tangled cords. And it couldn't be easier to use. Just aim and print.

The HP 82240A Infrared Printer and the HP 82242A Infrared Printer Module are in stock now.

For the location and number of the dealer nearest you, call toll-free 1-800-752-0900.

Or pick up the phone and order direct from HP by dialing 1-800-538-8787. (To purchase the printer and module outside the U.S., contact your local HP sales office listed in the telephone directory.)
