The Hewlett-Packard Solution.

Hewlett-Packard provides solutions that increase productivity. In addition to the recognized high-quality products, strong emphasis is also placed on support.

1. Service. HP-71B Handheld Computers are under a full one-year warranty from original date of purchase (refer to Owner's Handbook for specific details). A renewable one-year Support Agreement on some products, to begin at the expiration of the warranty period, is available at additional cost. The low agreement price provides a cost-effective service support program. Several years of support may be obtained for less than the price of one repair in the event of product failure. Standard repair charges (STREP) and support agreement prices on products repaired at the Calculator Service Center are:

Product	Standard Repair Charges	Support Agreement Prices
HP-71B (prices include 82400A Card Reader, 82401A HP-IL Module, and 82420A 4K Memory Module)	\$110.00	\$35.00
82161A Digital Cassette Drive	80.00	20.00
82162A HP-IL Thermal Printer/Plotter	65.00	20.00
2225B ThinkJet Printer	150.00	24.00
82168A Acoustic Coupler (modem)	50.00	12.00

For service information on products not listed here, refer to your product Owner's Manual or call (503) 757-2002. For other information, contact the Calculator Service Center; 1030 N.E. Circle Blvd./P.O. Box 999; Corvallis, OR 97330.

2. Support. For the price of a phone call, thoroughly trained representatives provide answers to a wide variety of questions. These questions may range from simple operational problems to difficulties regarding the usage of our software application packages and peripherals. This phone-in consulting service is available by dialing (503) 757-2004.

3. Custom Products. The HP-71 Custom Products Program is available to your multi-unit accounts. Custom ROM Modules, Custom Magnetic Cards, and Custom Keyboard Overlays provide personalized solutions. The services of Independent Custom Consultants (ICCs) range from software development to providing the custom products. For more information, refer to the Custom Products brochure and ICC Capabilities Guide.
