There's More!

More For You From Hewlett-Packard.....

Congratulations! You've just selected a Hewlett-Packard professional calculator, a tradition in design excellence. Your HP Calculator and Owner's Handbook give you everything you need to get started. Now you can make your Series 10 model work even harder for you. We have the software solutions designed to do just that—solutions that let you focus on your requirements.

For Science And Engineering:

HP-11C

- Executing operations on complex numbers?
- Doing a one-way analysis of variance?
- Working on calculations for simply supported beams?

Let the *HP-11C Solutions Handbook* do the work for you. *(00011-90009)*

HP-15C

- Need to know how to solve matrix operations?
- Concerned about the accuracy of your calculations?
- Searching for advice on how to use solve and integrate more effectively?

Find the answers in the *HP-15C Advanced Functions Handbook*. *(00015-90011)*

For Business:

HP-12C

- Learning the basics of your HP-12C?
- Looking for supplementary information for use with your HP-12C Owner's Handbook?
- Want to feel more at ease using your new HP-12C?

Then take a look at *the HP-12C Training Guide*. *(00012-90022)*

- Learning about calculator techniques in leasing?
- Making an analysis of leasing vs. buying?
- Calculating pre-tax or after-tax lease payments?

You'll find that the *HP-12C Leasing Applications Handbook* is just what you need. *(00012-90021)*

- Figuring discounts on loans or notes?
- Considering refinancing or acquiring a second mortgage?
- Need to calculate a Financial Management Rate of Return?
- Figuring your equity rate?

Have you seen our *HP-12C Real Estate Applications Book?* *(00012-90015)*

- Want to know how to figure the future value of your IRA?
- Calculating the remaining term on your variable rate mortgage?
- Performing a break-even analysis?

You can use the *HP-12C Solutions Handbook* for these applications and more. *(00012-90009)*
