HEWLETT PACKARD

HP-75

Data Communications Pac

The HP-75 Data Communications Pac is an easy-to-use, plug-in module which provides you with armchair access to other computer systems as will as commercial time-sharing systems, (e.g., *THE SOURCE*SM, *and Dow Jones News/Retrieval Service*®). You can obtain up-to-the-minute stock quotes, send or receive mail electronically, and access complete libraries of information anywhere, anytime.

Features

Multiple Communication Devices
- Communicate via telephone lines with any HP-IL compatible modem, such as the HP 82168A Acoustic Coupler, or any RS-232C compatible modem.*
- Connect directly to a serial port of a host computer.*

Multiple Display Alternatives
- View information on the HP-75's liquid-crystal display or display a full page of text using an HP-IL video interface and monitor.
- Generate printed output for record keeping or future review.

Transfer Files
- Store incoming information in a text file for later viewing, editing or printing.
- Save expensive connect time by creating text files offline and then transfer those files to a host computer at your convenience.

Special Code Words
- Save time by creating code words to represent commonly used log-on and network usage procedures, eliminating memorization of complicated keystrokes.
- Define your system configuration only once and eliminate time-consuming system initialization procedures.

Special LCD Features
- Scroll information across the HP-75's display marquee-style or view 32 characters at once.
- Stores incoming information in a 500-character buffer for later review.

---

* Requires the use of an HP 82164A HP-IL/RS-232C Interface.

*THE SOURCE*SM is a service mark of Source Telecomputing Corp., a subsidiary of Reader's Digest Association.
