

# Hewlett-Packard Calculators for Business and Finance

## HP-10B

**Business essentials, plus  
HP quality.**

The HP-10B is the only calculator under \$50 that offers essential business functions, plus *all* of these features:

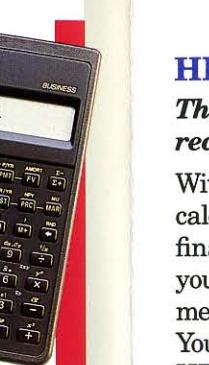

**Easy access to your  
solutions with:**

- Large, easy-to-read 12-character display.
- Effortless movement between functions – without losing data. Other business calculators in this price range slow you down with cumbersome "compute" keys and mode switching for changing from one function to another.
- Auto-increment feature that makes amortization schedules quicker to generate.

**Label descriptors.** They make it easy to understand and enter cash flows, and to see which values in an amortization schedule are interest, principal and remaining balance.

**Traditional HP quality.** The HP-10B works like every HP calculator – dependably. The keys are molded so the letters will never rub off, no matter how much you use them. And you never have to worry about sticking keys or the nuisance of double entries.

**Price:** \$49.95

## HP-12C

**The standard for  
real estate and finance.**

With this popular calculator's business and financial functions, plus math and statistics, you can calculate mortgages, balloon payments, depreciation, bond yields and more. You save keystrokes, too, thanks to the HP-12C's RPN entry system.

And the HP-12C's powerful keystroke programming is perfect for repetitive calculations. To program, just enter a series of keystrokes into the continuous memory, then execute your program at the touch of a button whenever you need it.

**Price:** \$94.95

## HP-17B Business Consultant II

**Delivers more than any  
calculator in its class.**

The HP-17B is the only calculator in its class that offers more than 250 functions for business, plus *all* these features:

**HP Solve.** Lets you customize your calculator without programming.

**Menus and softkeys.** For quick and easy access to your solutions.

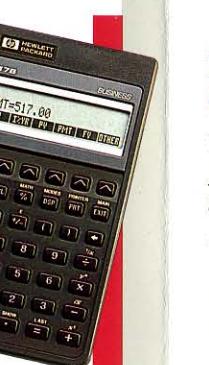

**Most powerful bond calculations in  
any handheld calculator.**

**Clock and alarm.** To remind you of pending appointments.

**List-based statistics and cash flows.** Reviewing your entries is simple: just scroll through.

**Optional infrared printer.** For go-anywhere cordless printing.

**Price:** \$110.00

## HP-14B

**Built-in ROI, break-even and  
inventory analysis.**

The HP-14B is the only calculator for small business owners and students that offers such useful functions, plus *all* these features:

**Labels, prompts, and  
messages.** Clearly identifies variables and results.

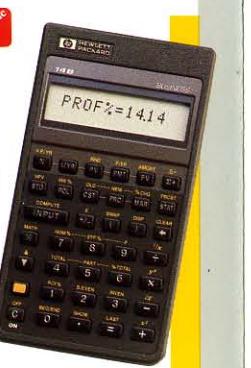

**Efficient combination of functions.**

Percent change, percent total, and markup based on cost and price.

**List-based cash flows.** Just scroll through your lists to review or make changes.

**Four curve fits plus a handy "best-fit" feature.** You don't even have to decide which curve fit is most accurate for your data – your calculator spots it for you.

**Price:** \$79.95

## HP Business Consultant II

**The ultimate for  
personalized  
business  
solutions.**

No other business calculator comes close to

**matching the HP Business**

**Consultant II.** It contains more than 450 functions for business, finance, math and statistics, plus *all* of these features:

**HP Solve.** Lets you customize your calculator without programming.

**Menus and softkeys.** For quick and easy access to your solutions.

**An indispensable graphics package.** Histograms, scatter diagrams, curve fits and graphics for cash-flow analysis.

**Information management features:**

- Text application. Enter and store lists of information such as names, addresses and phone numbers for quick and handy retrieval.

- Number list, label and running total capabilities. Store travel expense records and more.

- Currency and unit of measurement conversions. For international business and travel.

**Optional infrared printer.** For go-anywhere cordless printing.

**Price:** \$175.00

**Hewlett-Packard Co.  
Corvallis Division  
1000 NE Circle Blvd.  
Corvallis, OR 97330**

For additional information or a demonstration of Hewlett-Packard professional calculators, visit your nearest HP dealer.

**Where to call:**

- To order items your dealer does not carry, 800-538-8787 between 6 a.m. and 5 p.m. (Pacific time) Mon. - Fri.
- For repair information, 503-757-2020 between 7:30 a.m. and 5:00 p.m. (Pacific time) Mon. - Fri.
- For operating questions on HP calculators, call Calculator Support, 503-757-2004 between 8:00 a.m. and 3:00 p.m. (Pacific time) Mon. - Fri.

**Canada:**  
Hewlett-Packard Canada Ltd.  
6877 Goreway Dr.  
Mississauga, Ontario  
L4V 1M8

**Europe, North Africa, Middle East:**  
Hewlett-Packard S.A.
