

# 00520C PROGRAM DESCRIPTION I

Page 1 of 12

**Program Title** YACHT RACING RULES JUDGE  
**Contributor's Name** Lawrence M. Kazanowski  
**Address** 2323 Solano  
**City** Walled Lake **State/Country** MI **Zip Code** 48088

**Program Description, Equations, Variables** The program uses a decision tree to determine which yacht should be disqualified in any "right-of-way" situation (see page 2). Multi-boat situations are not directly covered but may be resolved by solving for two adjacent yachts and iterating. The logical decision tree approach illustrates the relative rank of rule changes in varying circumstances. The program will be helpful to:

a) race protest committees

b) sailors interested in improving their understanding of rules

**Necessary Accessories** 3-memory modules are required; printer and card reader are very desirable.

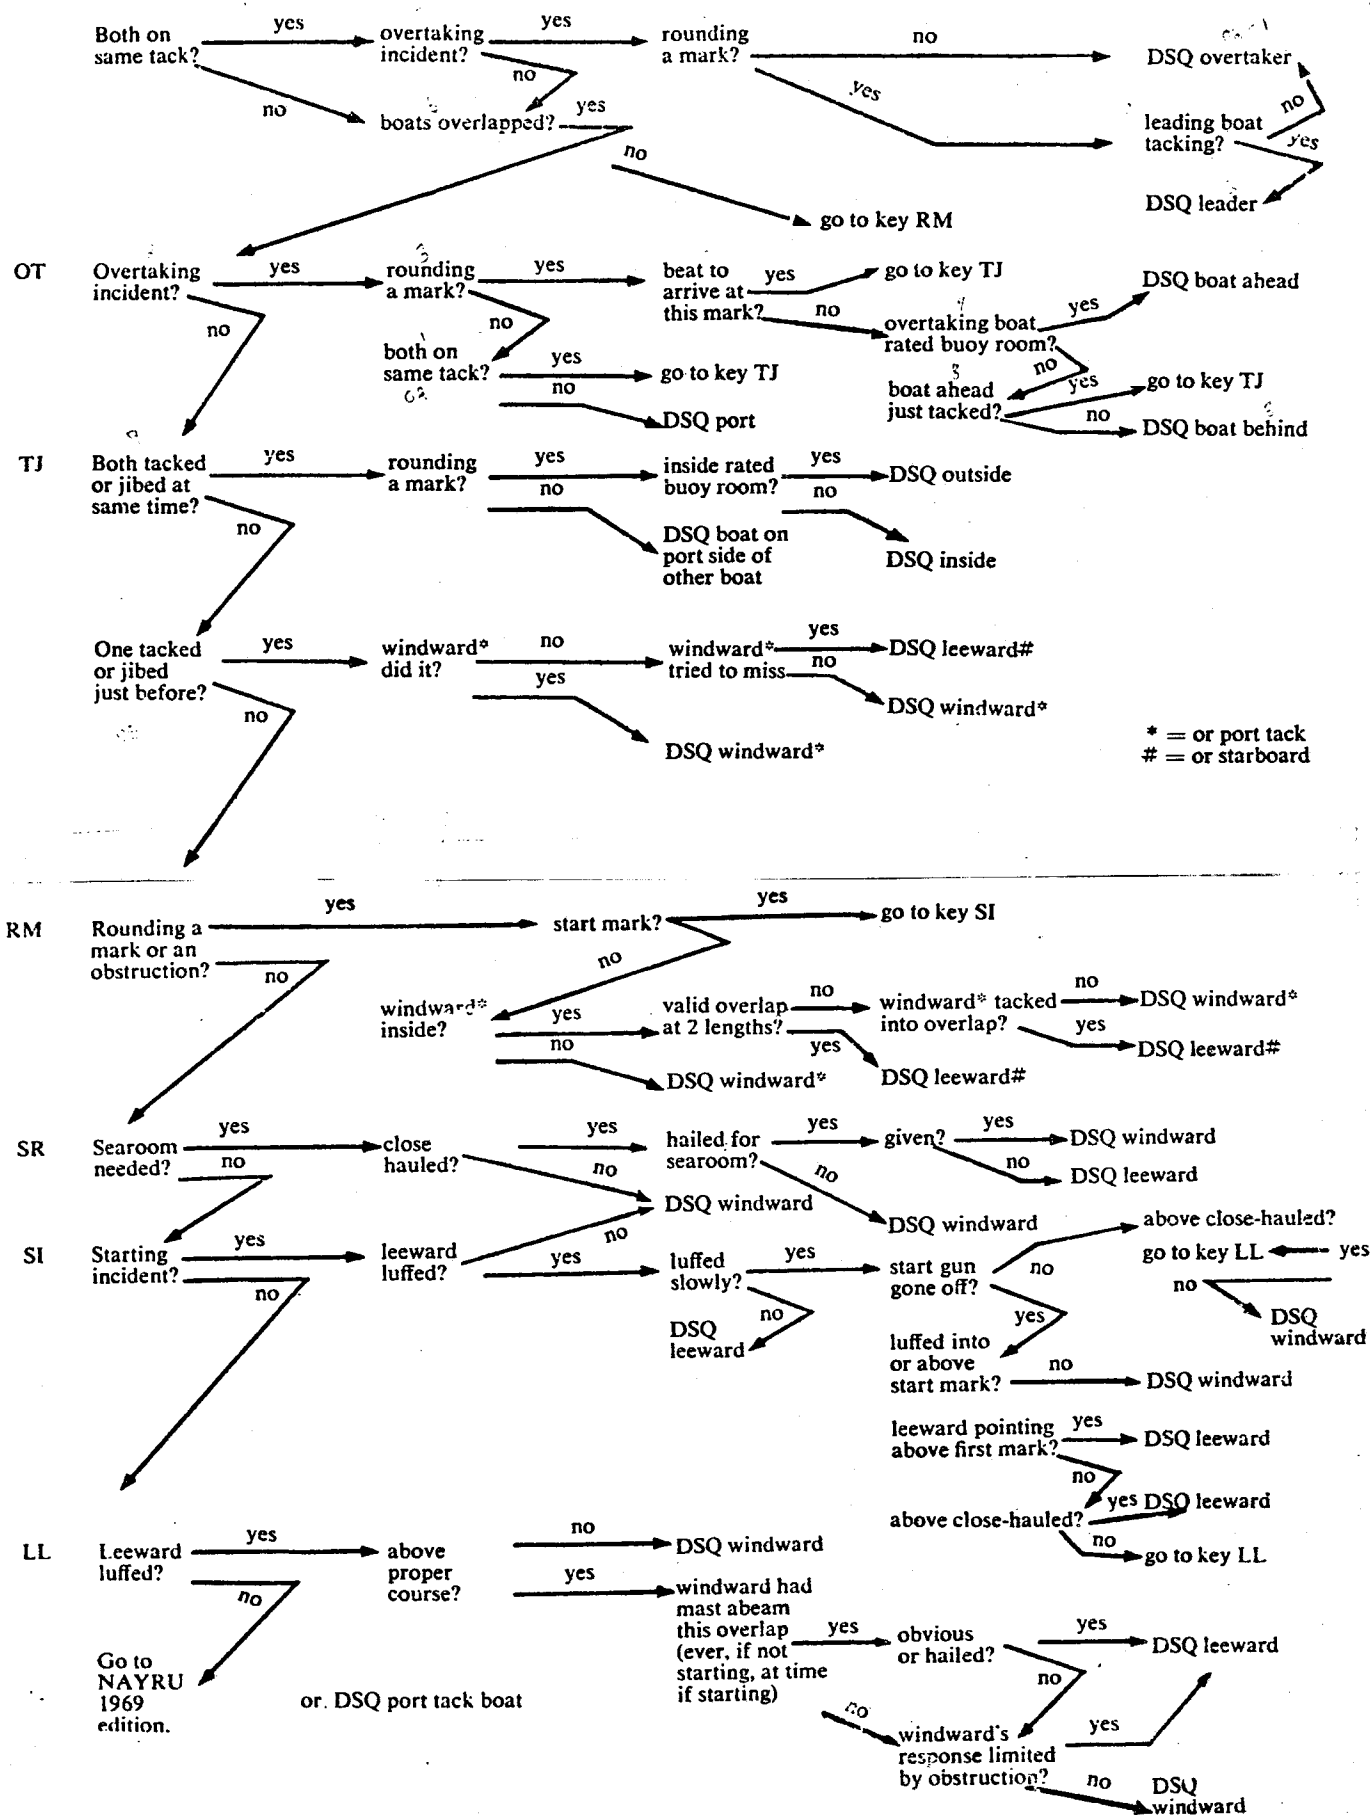

**Operating Limits and Warnings** Multi-boat situations are not directly involved.

**Reference(s)** Stephen A. Falk, SAILING RACING RULES THE EASY WAY, St. Martin's Press, New York, 1972.

This program has been verified only with respect to the numerical example given in Program Description II. User accepts and uses this program material AT HIS OWN RISK, in reliance solely upon his own inspection of the program material and without reliance upon any representation or description concerning the program material.

Sample Problem

Consider the famous case which occurred during the 1970 America's Cup regatta. Intrepid was the windward boat (D), and Gretel II was the leeward boat (C). The start gun fired when the yachts were in position 3. In position 4, Gretel II (C) luffed Intrepid (D) and contact occurred in position 5. Begin with the decision tree solution:

| Condition                                 | Answer         |
|-------------------------------------------|----------------|
| . Both on same tack?                      | Yes            |
| . Overtaking incident?                    | No             |
| . Overlap established?                    | Yes            |
| . Overtaking incident (OT)? *             | No             |
| . Both tacked or jibed at same time (TJ)? | No             |
| . One tacked or jibed just before?        | No             |
| . Rounding a mark or obstruction (RM)?    | Yes            |
| . Start mark?                             | Yes (Go to SI) |
| . Starting incident (SI)?                 | Yes            |
| . Leeward luffed?                         | Yes            |
| . Luffed slowly?                          | Yes            |
| . Start gun gone off?                     | Yes            |
| . Luffed into or above start mark?        | Yes            |
| . Leeward pointing above first mark?      | No             |
| . Above close-hauled?                     | Yes **         |

\* Occasionally a question is asked twice, depending upon other conditions.

\*\* This was the critical condition -- if you conclude that Gretel II was sailing above close-hauled, you would determine that she should be disqualified, as did the Race Committee.
